

ProSeries

SnowPro Snowblowers

SEE IT IN ACTION

60" & 47" SnowPro Highlights

- ▶ The electric spout rotator and deflector are standard equipment, NOT an expensive option.
- ▶ High-speed impeller ensures excellent snow throwing. The SwingSteer's™ 19gpm Auxiliary Hydraulics power the SnowPro through deep snow and drifts.
- ▶ Close coupled with the standard low profile quick attach for excellent visibility and maneuverability in tight working conditions around vehicles, buildings and obstructions.
- ▶ The optional pivoting drag bar easily pulls snow back away from doors, buildings and other objects, reducing shoveling and accidental damage.
